Compliance Deadline Calendar

Key regulatory deadlines for chemical labels & SDS — 2026 to 2029

VERIFIED • JUNE 2026

ghspictograms.com

- Reflects the two most recent changes most calendars miss: the **OSHA HazCom +4-month extension** (15 Jan 2026) and the **EU CLP “Stop the Clock”** postponement to 2028 (Dec 2025). Every date below is drawn from an official source listed on page 2.

EU • CLP

US • OSHA HCS

Binding

Subject to change

IN EFFECT = already mandatory

UPCOMING = future date

2026

1 May 2026

IN EFFECT

EU • CLP

Binding

New mixtures — four new hazard classes

Mixtures first placed on the EU market must be classified for ED (HH/ENV), PBT/vPvB and PMT/vPvM.

Del. Reg. (EU) 2023/707

19 May 2026

IN EFFECT

US • OSHA HCS

Binding

Substances — manufacturers, importers, distributors

Updated safety data sheets and container labels under HCS 2024 (aligned to GHS Rev. 7).

Extended +4 months from 19 Jan 2026 (OSHA, 15 Jan 2026).

29 CFR 1910.1200(j)(2)(i)

1 Jul 2026

UPCOMING

EU • CLP 2024 revision

Binding

Technical provisions of the 2024 revision

Multi-constituent substances (MOCS); digital and fold-out labels become available; updated specific concentration limits, M-factors and ATEs.

Reg. (EU) 2024/2865

1 Nov 2026

UPCOMING

EU • CLP

Binding

Existing substances — four new hazard classes

Substances already on the EU market before 1 May 2025 must now comply with the new hazard classes.

Del. Reg. (EU) 2023/707

20 Nov 2026

UPCOMING

US • OSHA HCS

Binding

Substances — employers

Update workplace labelling, the written hazard-communication program and worker training.

Extended +4 months from 20 Jul 2026.

29 CFR 1910.1200(j)(2)(ii)

19 Nov 2027

UPCOMING

Mixtures — manufacturers, importers, distributors

Updated safety data sheets and container labels for mixtures under HCS 2024.

Extended +4 months from 19 Jul 2027.

29 CFR 1910.1200(j)(3)(i)

US · OSHA HCS

Binding

1 Jan 2028

UPCOMING

Label-format & hazard-communication rules

Minimum font sizes and line spacing, the fixed 6-month relabelling deadline, and advertising / distance-selling information.

Postponed from 2026/27 by Reg. (EU) 2025/2439 ("Stop the Clock"). Further EU simplification (Omnibus VI) is still in progress.

Reg. (EU) 2024/2865 · 2025/2439

EU · CLP 2024 revision

Subject to change

1 May 2028

UPCOMING

Existing mixtures — four new hazard classes

Mixtures already on the EU market before 1 May 2026 must now comply with the new hazard classes.

Del. Reg. (EU) 2023/707

EU · CLP

Binding

19 May 2028

UPCOMING

Mixtures — employers

Update workplace labelling, the written program and worker training for mixtures.

Extended +4 months from 19 Jan 2028.

29 CFR 1910.1200(j)(3)(ii)

US · OSHA HCS

Binding

1 Jan 2029

UPCOMING

End of the stock-depletion transition

Substances and mixtures placed on the market before 1 Jan 2027 may continue to be sold until this date.

Reg. (EU) 2025/2439

EU · CLP 2024 revision

Subject to change

The three frameworks

UN GHS — Rev. 11 (2025)

MODEL FRAMEWORK · NO DIRECT DEADLINE

The UN model that both CLP and OSHA implement. Revision 11 (published 12 Sep 2025) adds a global-warming hazard endpoint, aerosol clarifications, non-animal skin-sensitisation methods, rationalised precautionary statements and simple-asphyxiant guidance. It becomes binding only when adopted into regional law. [UNECE →](#)

EU — CLP

REGULATION (EC) NO 1272/2008

Amended by Delegated Reg. (EU) 2023/707 (four new hazard classes — ED, PBT/vPvB, PMT/vPvM), Reg. (EU) 2024/2865 (labelling & digital revision) and Reg. (EU) 2025/2439 ("Stop the Clock", postponing several 2024-revision provisions to 2028). [ECHA →](#)

US — OSHA HazCom 2024

29 CFR 1910.1200

Final rule published 20 May 2024, aligned primarily to GHS Rev. 7 with select Rev. 8 elements. On 15 Jan 2026 OSHA extended every compliance date by four months. [OSHA →](#)

Official sources — verify before acting

ECHA	echa.europa.eu/new-hazard-classes-2023
OSHA	osha.gov/hazcom/rulemaking/extension
Council of the EU	consilium.europa.eu — CLP "Stop the Clock" postponement to 2028
UNECE	unece.org/transport/dangerous-goods/ghs-rev11-2025

For general guidance only — not legal advice. This calendar was compiled from the official sources above in June 2026. Regulatory deadlines change (this edition already captures two such changes). Always confirm the current requirements against the official sources before taking action, and check whether other regimes apply to your products (e.g. transport / ADR, REACH, biocides).

Free GHS tools — built by the same team Hazard pictograms (SVG & PNG), a CLP label constructor, per-pictogram hazard calculators and a full compliance hub.
